Interested in exploring job opportunities in China post-graduation and beyond?

The Office of Career Management is pleased to announce our partnership with Lockin China and the Global University China Career Union (GUCCU) which now connects students from more than 800 global universities to 100,000 job opportunities in China. Lockin China is the first Chinese online recruitment platform committed to providing career development support and employment opportunities for Chinese returnees.

Students interested in exploring job opportunities may visit the following exclusive job portal link https://chinaportal.guccu.org/osu to register and begin applying for positions of interest. Once registered, employers will send specific job opportunities intended for OSU students as well as upcoming career related events and workshops hosted by GUCCU.

Review the following information to explore additional resources available to Fisher students through our partnership with Lockin China and the GUCCU.
