RECRUIT AT FISHER

Recruiting top talent for your organization is easy at Fisher. Our dedication is to connect you with candidates who are a perfect fit for the needs of your organization.

SOME OF THE BEST METHODS FOR REACHING POTENTIAL CANDIDATES INCLUDE:

Handshake

The Ohio State University and the Fisher College of Business utilize the Handshake system for organizing recruiting. Using one platform enables employers to post jobs to multiple majors and degrees across the Ohio State campus. In addition to posting jobs through Handshake, employers can request and build on-campus interviews schedules, search student resumes, advertise information session events and join us for career fairs.

Company Information Sessions

Many companies host information sessions to build awareness about their businesses and opportunities. These sessions can be held as early as six weeks prior to interviews, or they can be scheduled the evening before the interviews as a way to provide students (especially those interviewing) with more in-depth information.

Participation in Classes and Seminars

An excellent way to share information with Fisher students is to participate in one or more of the student career planning courses, career and job search workshops, conferences, and job search panels offered by the college.

Involvement with Business Student Organizations

Undergraduate and graduate students build exemplary leadership, teamwork, and other essential job skills through more than 40 student organizations at Fisher. Working with student organizations enables you to meet and interact with Fisher students in a more personal setting. Many recruiters sponsor special events or talk with student groups about their businesses and careers.

Corporate Sponsorship Program

Our corporate sponsors attract the attention of the best and brightest candidates, develop a strong campus presence, and gain access to the faculty and student organizations at Fisher.

Employer of the Day

Connect with Fisher students for a casual networking opportunity. Employers can reserve space in the Fisher Courtyard or the lobby of Mason Hall to host a table event. Career Management will work with employers to reserve the space and advertise the event to the students.

Organized by specialization, the Career Foundation Seminars provide early exposure to industries and career fields to help students determine their personal career plans. Employers are encouraged to participate through expert panels on careers and industries as well as sponsoring the seminars.

Undergraduate Industry Immersion Programs

Designed to help undergraduates during their Junior year at Fisher and Ohio State dive into a specific industry while giving companies access to top talent and fresh perspectives on their most relevant business challenges. Through a year-long commitment to the course, company executives and faculty work together to build an in-depth classroom experience using real world challenges. Clusters include Business Analytics, Consulting, Consumer Packaged Goods, Energy and Sustainability, Healthcare, Manufacturing and Middle Market. Companies can become involved through sponsoring a cluster along with providing executives to teach and challenges to be consulted upon by students within the cluster.

MAXIMIZING THE INTERNSHIP EXPERIENCE

Fisher's top 20 undergraduate program helps our students develop the skills they need for a successful career. But nothing prepares our students for the real world like an internship. When an intern walks into your company on the first day of a 10-week stint, here are a few things to consider.

“What does a student expect from an internship experience?”

A WELL DEFINED PROCESS

Interns need to know who their supervisor is, what the supervisor expects of them, a clear statement and timeline of the project, and built-in evaluation and feedback sessions. Students want to leave the internship with a feeling that they have achieved what they were assigned. Companies that hire interns with the objective of selling their company to them so that they can recruit them permanently will be less interesting than those companies that have solid intern projects and management processes in place.

A MEANINGFUL EXPERIENCE

Having a challenging project where the supervisor and the intern can work together, build a relationship, and achieve a clearly stated and important goal is the most productive internship. Interns sometimes worry that they will be assigned to peripheral/marginal tasks that are neither important to the company nor good learning experiences.

UNDERSTANDING AND GUIDANCE

Interns would like employers to understand that they are not fully qualified for any given position. They don't know the company operating procedures and need time to adjust to the new environment. The most productive experience is one in which a supervisor guides an intern through the process.

A WELCOMING ENVIRONMENT

Interns would like to be treated like actual employees, as much as possible. If there are company meetings where interns can contribute (and the discussion is not classified or sensitive) interns would benefit from participating. Interns would also appreciate being included in social gatherings so they feel they are a part of the company.
