

Front-End Engineering Intern

Summer 2021

The Business

Bingo is a pet insurance startup. We sell through partners (B2B2C) with a software integration, similar to Stripe or Affirm. We are live with customers in 11 states, including our home state of OH-IO!

The Person

- You have a do-what-it-takes attitude and creative spirit.
- You have experience with React or similar frameworks.
- You desire to improve the customer experience and UI.

The Role

- Transform web and mobile designs into code on schedule.
- Create reusable components and application UIs.
- Plan and implement front-end features for customers.
