

Internship Position with ds-connex

Ds-connex is a social enterprise funded by The Wells Foundation. We have developed peer to peer fundraising software for use by non-profits around the country. Our fundraising software will allow non-profit organizations to increase participation and donations for their events. In addition to the software we provide fundraising, technical and social media support to enhance their fundraising results.

We are looking for an enthusiastic college undergraduate with an interest in gaining more experience in business development and fundraising for non-profits. The intern for this project will assist with the onboarding process of the non-profit organizations, help these organizations define their online fundraising website requirements, customize their online fundraising website and provide team fundraising and social media best practices leading up to the event.

The internship position would also be responsible for creating and running data analytic reports to improve fundraising results and create best practices based on current and past fundraising results.

This is an in-person position in our office on Tuesdays and Thursdays. Our office is located at 445 Hutchinson Avenue, Suite 140, Columbus Ohio 43235. (About 20 minutes north of campus) There is free parking available around the building. Business casual attire is acceptable.

Please visit the ds-connex website: <http://www.ds-connex.org> to learn more about our organization.
