Visit to Sherwin Williams, November 5

On November 5, the Pathways Group visited a Sherwin Williams paint plant in south Columbus. The plant makes approximately 13 million gallons of paint per year. At any point in time, the plant has WIP of ~200,000 gallons of paint in the mixing process and ships roughly 40,000 gallons per day. The group received an overview of the internal supply chain activities and scope of the company. The company operates over 100 manufacturing facilities worldwide, hundreds of tractor trailer trucks and over 4,600 company stores. With over 50,000 employees, Sherwin-Williams recently completed an acquisition of Valspar paints. The company was founded in 1866 by Henry Sherwin and Edward Williams, recently celebrating its 150th anniversary. Thanks very much to the generous financial support and the time spent by the following Sherwin Williams associates:

Brian Pavella
David Zak
Susan Vidovic
Lori Peterson
Tracy Roesch
Blake Lewis
Nathan Stemen
Jessica Adoryan
Rebecca Wagner
Sharon Vasher
Brandon Rinkenbaugh
Andrew Maynard
Michele Burkin

Future Events

- December 3 – holiday lunch
