Finance Honors is a two-year holistic program that educates and develops future business leaders. The program attracts high-performing, driven, and diverse students in the finance specialization. Students expand their qualitative and quantitative skills, while sharpening their abilities in areas such as data modeling and analysis, real-world business problem solving, critical thinking and influencing, global markets, and service driven leadership.

**VISION**
To consistently keep contributing to the society by equipping our finance honor students with essential skills to become future successful business leaders.

**MISSION**
To support the academic and personal development of highly motivated academically strong finance students by challenging them with a custom-tailored core finance curriculum and guiding them to develop the essential skills to reach their career goals.

**Experience the Difference**
- Smaller class-size with highly motivated peers.
- Challenging coursework with experiential learning.
- Exclusive networking opportunities.
- On-site visits with business leaders and engaged alumni.

Seminars with industry guest speakers and consulting work for nonprofit organizations to sharpen skills in following areas:
- Analytical Reasoning
- Business Problem Solving
- Critical Thinking and Communication
- Developing Leadership and Influence

Build critical thinking, analytical, and communication skills needed to secure and succeed in top post-graduate jobs at financial and non-financial corporations.

Strengthen leadership skills through team projects embedded in courses and leadership workshops in seminars.

Establish a strong and wide network with industry speakers, distinguished alumni in the financial industry, and classmates that you will be your cohort for two years.

Be part of The Mentorship Program that matches students with finance professionals. Matching is based on areas of expertise and students’ particular needs and career interests.

Travel to domestic financial centers such as trip to Wall Street. Gain insights into the financial industry, its unique culture, how different roles and functions work together, and meet with New York City Alumni.

Give back to the community through real projects for non-profit organizations.

Our students received internship or full time offers from companies such as:

A Diverse and Dynamic Community
Have exposure to and benefit from diversity in classmates and alumni's background.
